## Lessons Learned From Pathfinders for Regional Back Office Mergers

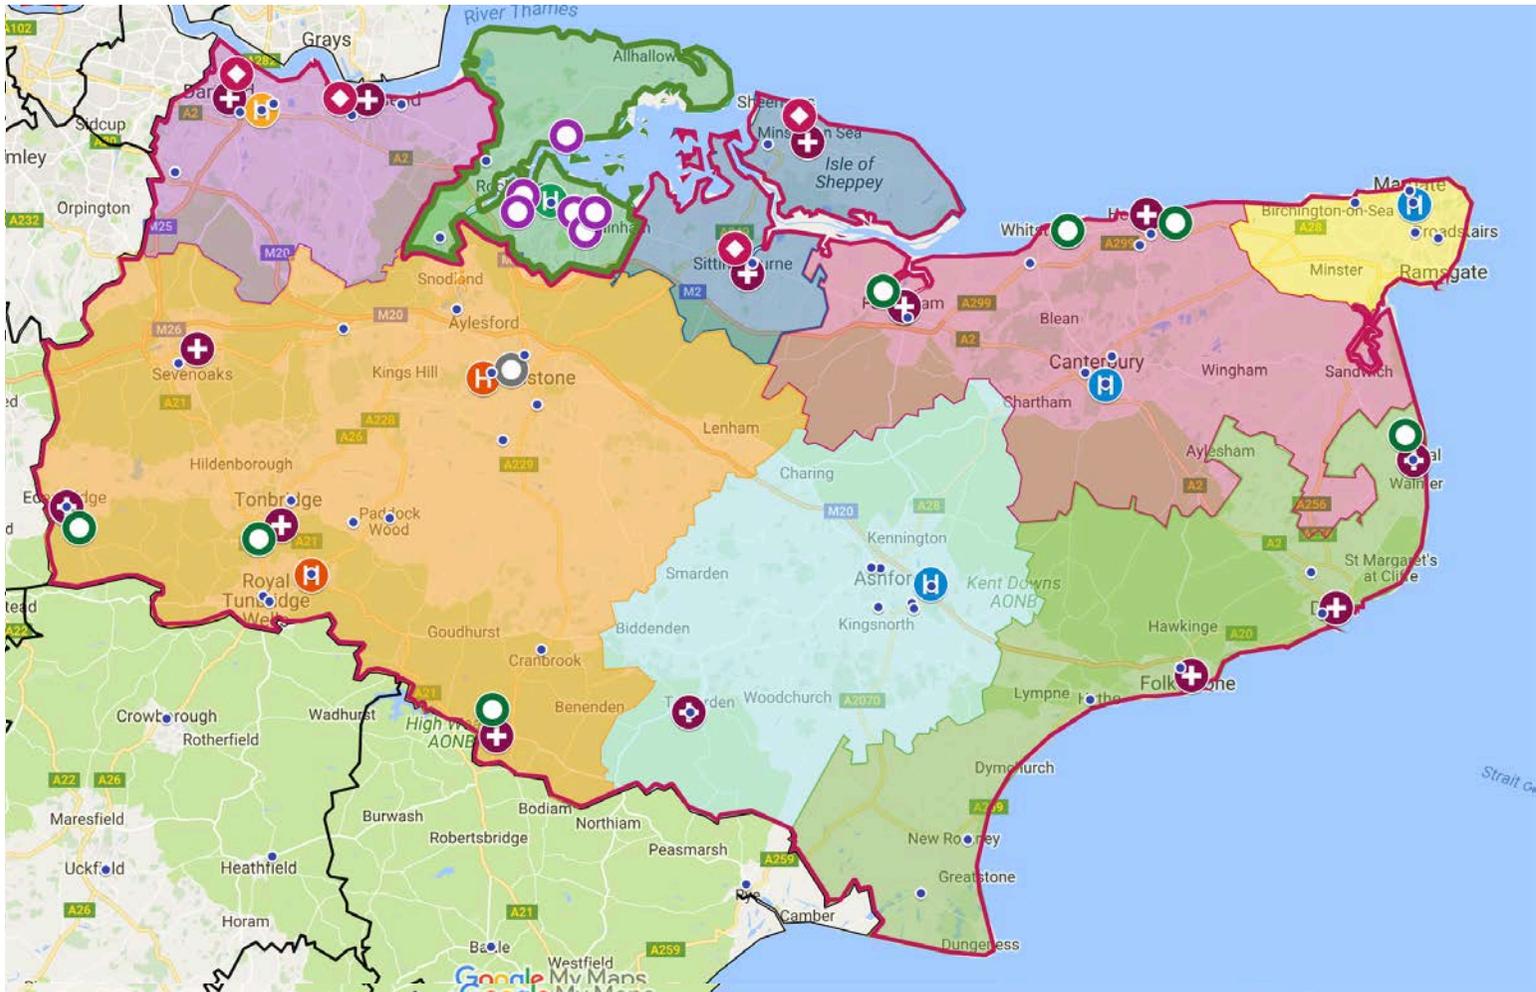

**Steve Orpin**

**Director of Finance, Maidstone and Tunbridge Wells NHS Trust**

**Kent and Medway STP, SRO for Provider Productivity Workstream**

# We are 7 NHS providers – 4 Acutes, 2 Community providers and a Mental Health Provider – joining together with other partners, to transform Corporate Services in Kent & Medway

- H D&G NHS Trust
- H EKHU NHS FT
- H Medway NHS FT
- H MTW NHS Trust
- + Kent community hospitals
- Kent and Medway NHS and Social Care Partnership Trust
- Medway Community Healthcare services
- Kent Community Healthcare Foundation NHS Trust
- ◇ Virgin Health
- + South East Coast Ambulance
- Service NHS Foundation Trust

**Local Authorities:**

- Kent County Council
- Medway Council

# Corporate Services Context

- There are currently no Kent and Medway shared service arrangements across the patch, with any services that exist made up of a maximum of two or three partners at most.
- In fact, we have a history of reducing shared service models, with the recent dissolution in March 2016 of a county wide Health Informatics service.
- The majority of corporate back office services are currently provided partially or wholly in-house within the STP including Finance, Procurement, Human Resources and Payroll, Information Technology, Information and Legal, Risk and Governance services.
- Some Estates & Facilities services are outsourced across the patch, in particular there are two major Acute PFI contracts and some Mental Health facility PFIs.
- Finance and Accounting services for all the CCGs within the footprint and two providers are provided by NHS SBS. Two providers run a combined shared service model and the remaining Providers have in-house services using the same software product in variety of different arrangements.
- Three of the footprint Providers have their Payroll (Employment Services) provided by SBS, as do the CCGs. All the remaining Providers have in-house services.

# Kent and Medway STP Pathfinder

- Corporate Services steering group set up under the Provider Productivity workstream in Summer 2016
- 7 sub groups, for each functional area, led by subject expert from each Trust supported by Finance lead mobilised in September 2016.
- Very quickly agreed a core principle that significant opportunities were available as a consequence of organisations working together.
- Selected to be a Pathfinder by NHSI due to approach being discussed with NHS SBS in regards to Finance, Payroll and Procurement
- The approach would see NHS SBS staff and “STP” staff working together in a local hub to further drive economies of scale, standardisation and enhanced service.
- Mixture of different approaches emerging, some areas already building on work to deliver benefits now and link to productivity benefits.

**What are the lessons we learned along the way?**

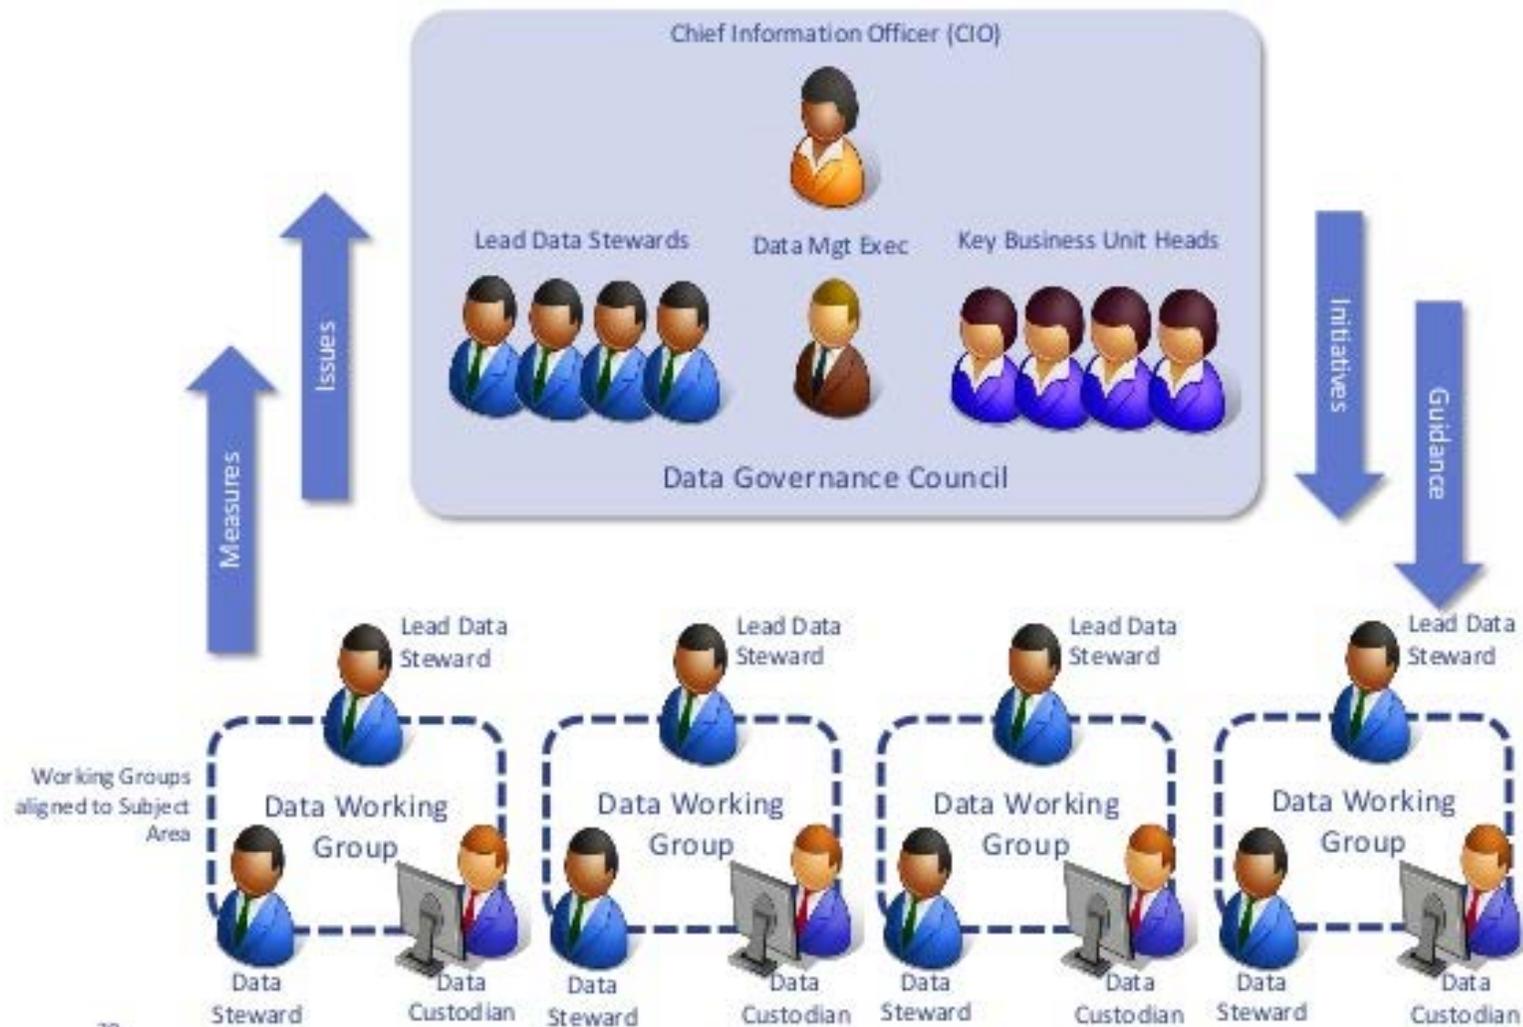

An illustration featuring ten hands of various colors (pink, yellow, brown, purple, blue, black, and light pink) reaching towards the center. The hands are arranged in a circle, with their fingers pointing towards the text. The text "team work" is written in a bold, lowercase, sans-serif font in the center of the image. The background is white, and there is a blue horizontal bar at the top of the page.

**NHS**  
*Improvement*

**“What if, and I know this sounds kooky,  
we communicated with the employees.”**

**WHATEVER  
YOU DO  
DO IT WELL**

*- WALT DISNEY*

# Conclusion

- We learned our lessons the hard way – we made mistakes in EVERY single one of those areas mentioned before, and had to move on from them.
- None of this is “rocket science” but its amazing how easy it is to fall down on the simpler elements of project management
- There is not a “one size fits all” answer in the corporate services areas
- Invest time early in the process with all stakeholders
- A strong , owned vision across the STP will help to sustain progress
- A clear and detailed vision of what you want will help you deliver a quality end product
- Do not underestimate the time and resource that projects will take to deliver
- Other NHS colleagues will be happy to help, don't be afraid to ask
