

NHS
World Class Services
Prolonging peoples lives

Role
It needs to change
It's not economical
Consider who does what - Health professional roles
GP role needs to be looked at.

changes for specific things?
The NHS needs to be more efficient
Treating people when they are unwell

We all want it to work!

NHS
Relationship

Government
The NHS should be responsible for health conditions we aren't responsible for - not about lifestyle
It depends on who is in government.
Put me for annual resource survey in 10 for the NHS

Information
Regulatory
Education
Setting Guidance
responsible for Public Health

The tax system is in line with the funding needed

Prevention
Using Services
Funding
Incentives

ring forced mobility would work
for a healthy lifestyle

NHS at 70
the NHS and the public
Relationship between

Public Expectations
you have to wait a long time
But when you get treatment it's the best.
Depends on your experience
How realistic are our expectations
It opens up value for money
The expectation of other services is different

Responsibility Individual
We need to be responsible for what we eat
Getting drunk and needing an ambulance is irresponsible!
drinking
super intake
We do have to take responsibility for our actions
Smoking
eating
life style
If money was ring forced I'd want to see improvement
Responsibility
foundation on the ordinary NHS!
People should think before they use services

Prevention Education
NHS needs to treat unwell people but keeping people healthy will reduce the number of unwell people!

Using Services Education
There should be a consequence for inappropriate use of service
how would it be addressed?
what about people with dementia?
I think there's enough money in the system
If it wasn't I'd be prepared to pay more
I'll be happy to pay more if my GP/consultant for me pay my share!
Pre paid purchase!

Funding
make efficiencies 1st
could be a fine?

The Deal
The community Health System
Healthy harmony plan
Give
Get
Don't take medication you aren't use
keep appointments
be responsible for your own health/body composition
pay a bit more dedicated
look out for each other
There is inconsistency in advice given GPs vs A&E
Pharmacist
Appointments out of hours
Well managed receptionists
better use of technology
extend theatre times
Promote available services
Realistic times/treatment
regular reminders
Responsible use of fitness medication
Public information through necessary appointments
more channels
Increased access to medical notes
Increased staffing levels
Treat in local minor injuries
Respect older people
Efficient use of funds
It's a good idea to revisit the principles
Services being redesigned
Plans to transform the NHS
It's not enough
the system is under strain
Creates demand on services
More complex health issues

CHALLENGES
Aging population
Funding
More complex health issues
