NHS at 70 and the Relationship between the NHS and the Public

**NHS**
- The demand for the NHS is going up!
- We need better education!
- Things need reviewing
- 70 years on, looking ahead
- It could do with updating

**Government**
- Five Year Forward View
- Forward thinking
- Responsibility
  - Encouraging people to take on health
  - Supporting people in their health
  - Encouraging people to stay healthy
  - Promoting mental well-being

**NHS**
- Funding principle
- Five Year Forward View
- Forward thinking
- Responsibility
  - Encouraging people to take on health
  - Supporting people in their health
  - Encouraging people to stay healthy
  - Promoting mental well-being

**Who is responsible for what?**
- Individual
- Government
- NHS

**Relationship**
- We are proud of the NHS
- We know people who work in the NHS
- What is the relationship?
  - NHS constitution
  - Patients' charter
  - 'Give and get'
  - We want better consistency

**Public**
- How would you describe the relationship with the NHS?
- Public responsibilities

**Individual**
- What does it mean to you?
- It means for the NHS I would be still paying off my medical bill
- Yes, it is

**Expectations**
- Majority of expectations are not likely to be realistic
- 75% think the NHS costs too much

**What is the balance?**
- The deal
- Money goes in: GDP
- Money goes out: Total spending
- The difference: Surplus or deficit

**Challenges**
- Complex health issues
- Demographic pressures: Ageing population

**What should the NHS be?**
- Comprehensive
- Integrated
- Accessible

**Thinking of action**
- Funding
- Demographic pressures
- Long-term sustainable
