Scottish Routine Examination of the Newborn Course (SRENC)
A standardised national training course for all maternity-care professionals in the knowledge and skills required for the routine examination of the newborn.

Scottish Neonatal Resuscitation Course (SNRC)
The ABC of neonatal resuscitation is required by all maternity-care professionals. The Scottish course includes the basic knowledge and skills required by all maternity care professionals.

Maternity REACTS (Recognition, Evaluation, Assessment, Critical treatment and Stabilisation)
Enhancing skills and knowledge of the recognition and management of critically ill obstetric women requiring high dependency care.

Scottish Generic Instructors Training Course (SGITC)
Provides a standardised, quality-assured method of training Instructors to support the Scottish Multidisciplinary Maternity Development Programme.

Scottish Parent Education Facilitators Course
Provides a standardised, quality-assured method of training facilitators to provide consistent parenthood education in Scotland.

Scottish Core Obstetric Teaching and Training in Emergencies (SCOTTIE)
For all maternity-care professionals who wish to enhance their knowledge and skills of unexpected obstetric emergencies which require an escalation of care.

Scottish Neonatal Pre-transport Care Course (SNPTCC)
Designed for community maternity care professionals to prepare them to provide unexpected ongoing neonatal care prior to emergency transport. This course is run by members of the Scottish Neonatal Transport Service with support from the SMMDP.
