4.00pm Closing comments and close of conference
Integrating care throughout the patient’s surgical journey
How can we harness multidisciplinary working, reduce variation and improve patient outcomes?
Tuesday 9 February 2016 | The King's Fund, London W1

Session two: Breakouts

A: Measuring and improving surgical outcomes
Welcome back and introduction
Professor Mike Grocott, Professor of Anaesthesia and Critical Care Medicine, University of Southampton
Peri-operative Quality Improvement Programme (PQIP)
Dr Ramani Moonesinghe, Consultant, Anaesthesia and Critical Care Medicine, University College London Hospitals NHS Foundation Trust
Case study: The Emergency Laparotomy Pathway Quality Improvement Care (ELPQuiC) experience
Dr Nial Quiney, Clinical Director, Anaesthesia, Intensive Care and Pain Management, Royal Surrey County Hospital NHS Foundation Trust
Questions and discussion

B: Pre-operative optimisation
Welcome back and introduction
Dr Teik Goh, General Practitioner, The Garth Surgery, and Planned Care Workstream Lead, NHS South Tees Clinical Commissioning Group
Developing a complex intervention in the primary care setting
• Improving surgical patient outcomes by collaborative primary-secondary working.
• Working with primary care staff on knowledge sharing and addressing unhealthy patient behaviours and co-morbidities at an early stage in the pathway.
Professor Gerry Danjoux, Consultant Anaesthetist, South Tees Hospitals NHS Foundation Trust
Making every contact count for physical activity
• Improving surgical patient outcomes by collaborative primary-secondary working.
Mr Jon Dearing, Consultant Orthopaedic Surgeon, NHS Kilmarnock, and Regional Surgical Adviser, The Royal College of Surgeons
Questions and discussion
Panel joined by Mr Simon Roberts, Fellow, The Faculty of Sport and Exercise Medicine, and Consultant Orthopaedic and Sports Injury Surgeon, Robert Jones and Agnes Hunt Orthopaedic Hospital

C: Making surgery safer for older people
Welcome back and introduction
Professor David Oliver, President, British Geriatrics Society, and Visiting Fellow, The King's Fund
Pro-active care for older people undergoing surgery (POPS)
• Delivering a geriatrician-led and patient-centred service tailored to improve the health of patients before and after surgery.
Dr Jugdeep Dhesi, Consultant Physician and POPS Lead, and Jason Cross, Advanced Nurse Practitioner, POPS Team, Guy’s and St Thomas’ NHS Foundation Trust
Co-ordinating care through multidisciplinary working
• A holistic approach to delivering tailored care for older people with cancer.
• Empowering patients to take more control over their treatment and other services they need.
Dr Shane O’Hanlon, Consultant in Elderly Care Medicine (Surgical Liaison and Comprehensive Care of People with Cancer), Royal Berkshire NHS Foundation Trust
Kay Hargreaves, Occupational Therapist, Royal Berkshire NHS Foundation Trust
A joined-up health and care community
• Ensuring effective recovery and enabling patients to maintain independence.
Caroline Taylor, Director of Adult Social Services, Torbay Council
Questions and discussion
Panel joined by Brenda Murray, Trustee, Carers UK (expert by experience)

D: Commissioning integrated care pathways
Welcome back and introduction
Ben Collins, Project Director, The King’s Fund
Commissioning for true integration of primary and secondary care services
• Joining up care so that patients have a smooth transition from hospital to home post-surgery.
• Ensuring more care is delivered in community settings, and joint commissioning responsibility across the whole health economy.
Dr Alistair Blair, Chief Clinical Officer, NHS Northumberland Clinical Commissioning Group
(The Northumberland Integrated Primary and Acute Care System (PACS) vanguard was launched in March 2015, as part of NHS England’s new care models programme.)
Developing joint commissioning arrangements
• Supporting people in moving out of hospitals and gaining independence.
Sarah McBride, Director of Delivery, NHS North East Hampshire and Farnham Clinical Commissioning Group
(The NHS North East Hampshire and Farnham Integrated Primary and Acute Care System (PACS) vanguard was launched in March 2015, as part of NHS England’s new care models programme.)
Questions and discussion
