

Digital Health & Care Congress

Scaling Technology Enabled Health - *Practically!*

Kings Fund 16th June 2015

Dr Maurice Smith

A circular logo with concentric green and yellow rings. A white square is centered within the rings, containing the text 'HEALTHY LIVERPOOL' in white capital letters.

HEALTHY
LIVERPOOL

digitally enabled Healthy Liverpool

- Eco-system
- Skills for digital and innovation
- Developing and testing
- **Scaling up smart solutions**
- Intelligence and evaluation

HEALTHY
LIVERPOOL

digital health challenge

- i. self-care is **not** within NHS DNA - moved from a safety net/last chance saloon to the place that will fix all health related matters.

- ii. health is **not** a priority for most people i.e. it's a really hard sell!

digital health enablers

Engaging with citizens and practitioners to promote the idea that:

- a) we all have a **role to play** in disease and condition management, health improvement and care
- b) there is a **choice** in what happens when we become ill/vulnerable

and **technology** can make life easier

Mi[®] time to catch up
with friends

digital (co)-design product, pathway & service

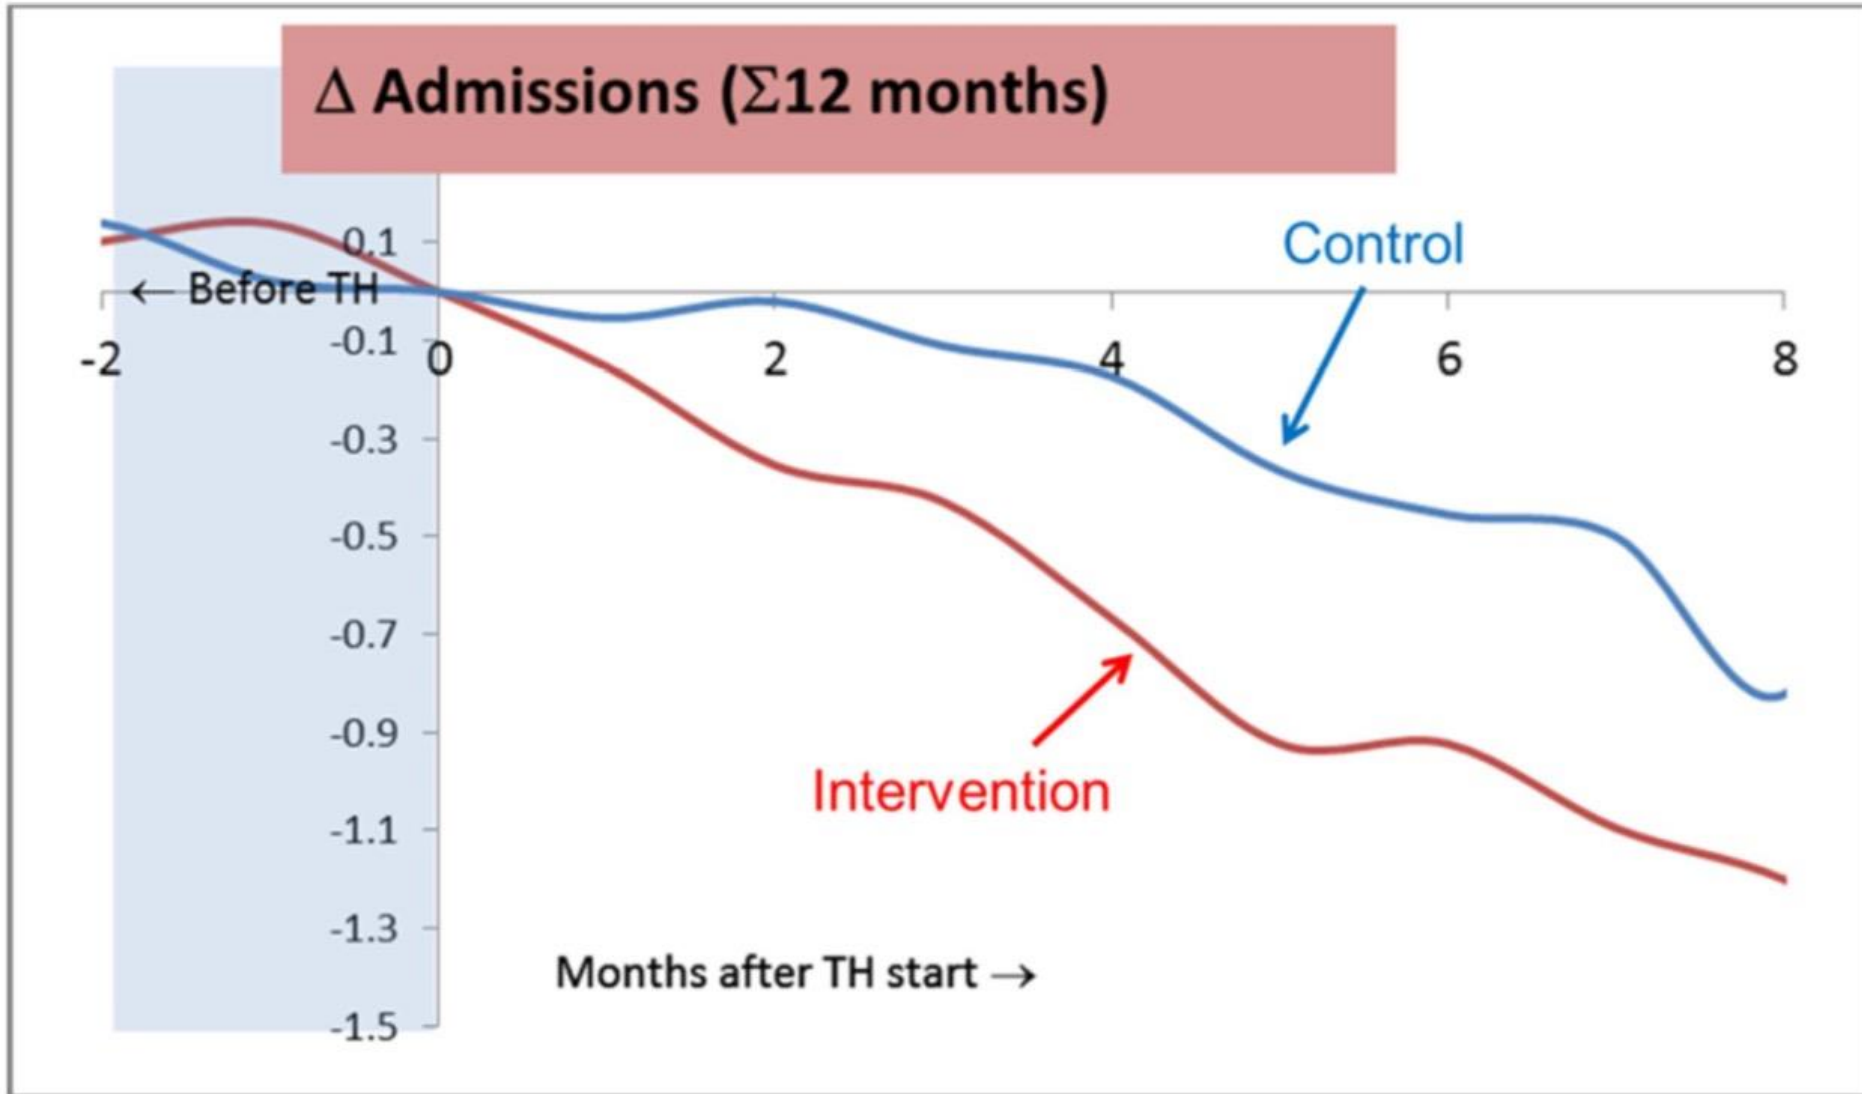

Liverpool now has the largest scale deployment of health technology (within a single health economy) in Europe

EU Commissions Research Unit

impact of health technology

digitally priorities driven by:

- Healthy Liverpool & LEP Innovation Plans
- National/International Drivers
- Opportunities (inc. bids/funding/quick wins)
- External affairs and partner activity

Resources mobilised to support activity that:

- has potential to scale
- cuts across programmes/pathways
- would benefit from external partners/digital resources

digital maturity CQUIN to:

accelerate transformation towards technology enabled care services and practice that:

- monitor and support
- enable and empower
- support and manage
