

**Sarah Price, Exec Lead for Population Health and
Commissioning – 5 July 2017**

GM and Devolution

- Manchester Independent Economic Review commissioned by the 10 Councils launched in 2008
- Didn't organise ourselves as a single cohesive whole
 - a single geography
 - standard of school readiness too low
 - health status too low
- Failing to connect the population to economic growth

GM Devolution – the background

Greater Manchester Devolution Agreement settled with Government in November 2014, building on GM Strategy development.

Powers over areas such as transport, planning and housing – and a new elected mayor.

Ambition for £22 billion handed to GM.

MOU Health and Social Care devolution signed February 2015: NHS England plus the 10 GM councils, 12 Clinical Commissioning Groups and NHS and Foundation Trusts

MoU covers acute care, primary care, community services, mental health services, social care and public health.

To take control of estimated budget of £6 billion each year from April 2016.

Health & Social Care Reform – What did the GM Devolution Agreement say?

*“The government invites the GMCA and Greater Manchester Clinical Commissioning Groups and acute trusts to **develop a business plan for the integration of health and social care across Greater Manchester**, making best use of existing budgets and including specific targets for reducing pressure on A&E and avoidable hospital admissions. **The government will continue to set out incentives for health and care partners in GM to develop this plan.** The government will also work with local government and NHS England to give greater certainty about health and care funding settlements. This includes by working towards multi-year allocations at the next Spending Review. HMT is keen to support a Greater Manchester-wide health and social care strategy which **fairly and accurately reflects the priorities of the full range of NHS and social care stakeholders, including acute trusts.** It would therefore not be appropriate for central government to Mandate any particular approach. Agreement from Greater Manchester Clinical Commissioning Groups will be required to implement any plan for services and budgets which are their responsibility.”*

Taking charge of our Health and Social Care in Greater Manchester

The Plan

The negotiations continue...

- Further areas where we think devolution would improve outcomes e.g. mental health
- Patrolling the boundaries - an ongoing task
- Organisational 'muscle memory'
- Focusing on the £22bn – does that need us to go further?
- What happens when the investment fund of £450 is spent?
